**LIST OF investment projects aimed at diversifying production at chemical industry enterprises in 2021-2025, organizing the production of new types of chemical products with high added value by effectively using the existing raw material base**

<b>N</b>	<b>Name of the project</b>	<b>Scope of application</b>	<b>Foreign partner</b>	<b>Timeframes</b>	<b>Overall cost of the project</b>
1.	Organization of acetic acid production by processing methanol on the basis of JSC "Navoiazot".	Textile and chemical industries	Continental Construction and Supplies Trading GmbH (Austria)	2021-2024 years (September)	120 mln. US dollars
2.	Organization of production of vinyl acetate from methanol on the basis of JSC "Navoiazot".	Construction materials industry	Continental Construction and Supplies Trading GmbH (Austria)	2021-2024 years (August)	56,3 mln. US dollars
3.	Organization of production of acetaldehyde by processing methanol on the basis of JSC "Navoiazot".	Construction materials industry	Continental Construction and Supplies Trading GmbH (Austria)	2021-2024 years (October)	37,5 mln. US dollars
4.	Organization of production of acetate esters by processing methanol on the basis of JSC "Navoiazot".	Construction materials industry	Continental Construction and Supplies Trading GmbH (Austria)	2021-2024 years (November)	25,5 mln. US dollars
5.	Organization of production of polyoxymethylene (POM) by processing methanol on the basis of JSC	Pharmaceutical and textile industries	P&ID (South Korea)	2021-2025 years (September)	400 mln. US dollars

	"Navoiazot".				
6.	Organization of production of monoethylene glycol (MEG) and diethylene glycol (DEG) from methanol on the basis of JSC "Navoiazot".	Mechanical engineering and chemical industry	Johnson Matthey (Great Britain)	2021-2024 years (December)	250 mln. US dollars
7.	Organization of production of nitron fiber by processing methanol on the basis of JSC "Navoiazot".	Textile industry	-	The years 2021-2023 (December)	210 mln. US dollars
8.	Modernization of medical oxygen production on the basis of the State Unitary Enterprise "Tashkent Oxygen Plant".	Pharmaceutical industry	OOO "Oxygen Tashkent"	2021 (March)	2 mln. US dollars
9.	Organization of production of soda from carbonate-anhydride gas at LLC "Kungrad Soda Plant".	Construction and chemical industry	LLC "Kungrad Soda Plant".	2021 (June)	1 mln. US dollars
10.	Organization of production of plastic bags at JSC "Zhizzakh plastic" (stage II).	Chemical industry	JSC "Zhizzakh plastic"	2021 (September)	1,5 mln. US dollars
11.	Organization of a chemical logistics center in the Kungrad district.	Logistics	-	2021-2022 years (December)	6,7 mln. US dollars
12.	Organization of production of chemical plant	Agricultural industry	"International panaacea" Limited	2021-2022 years (December)	20 mln. US dollars

	protection products.		(India)		
13.	Production of complex mineral fertilizers.	Agricultural industry	"UHB Agro" (Latvia)	2021-2022 years (November)	10 mln. US dollars
14.	Organization of production of potassium salts by deep processing of caustic soda on the basis of JSC "Navoiazot".	Agricultural industry	-	The years 2021-2023 (September)	30 mln. US dollars
15.	Organization of production of reagents based on carboxymethylcellulose for drilling, construction, food and medical industries in the Yukorichirchik district of the Tashkent region (stage II).	Chemical and oil and gas industry	OOO "Toshkent Polymer Sintez"	2021 (February)	1,5 mln. US dollars
16.	Organization of production of carbamido-formaldehyde resin on the basis of JSC "Navoiazot".	Construction and chemical industry	Continental Construction and Supplies Trading GmbH (Austria)	2021 (June)	4 mln. US dollars
